

TERÄS BO Table

With a TERÄS café set you can create a cosy eating area that will stand up to outdoor use by large numbers of people. The set is ideal for urban squares and parks as well as courtyards at housing association properties.

The table can be combined with four chairs, two benches or a mix of chairs and benches with or without armrests. The cut-out in the back can be individually customised, e.g. in the shape of a city logo or other logo.

The entire TERÄS range is durable for both indoor and outdoor use. It is made in powder-coated steel and aluminium, and for being cleaned simply needs wiping down with a damp cloth. Steel components are always hot-dip galvanised before being powder-coated, providing double protection against rust.

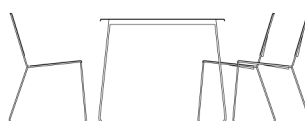

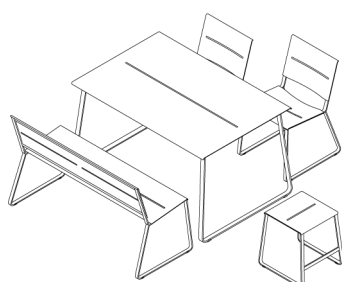

The frames are hot-dip galvanised, powder-coated steel. The table top is made from powder-coated aluminium. The benches and chairs can be supplied with a back and seat of steel or aluminium, depending on whether you want a lighter or heavier option.

TERÄS furniture boasts a summery, Nordic look, suitable for creating cosy outdoor seating areas offering a colourful ambience and excellent durability.

Materials

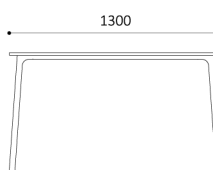

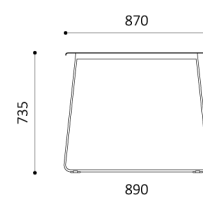

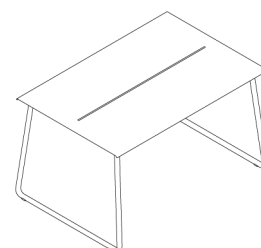

Frame: Powder-coated, hot-dip galvanised steel

Seat: Powder-coated, aluminium

Dimensions

L: 1300 mm
W: 890 mm
H: 735 mm
Weight: 35 kg
