

TERÄS ST - STA Chair

TERÄS is a simple, colourful metal chair in a distinct Nordic design. It goes with the TERÄS table, and can be paired with the TERÄS park bench and TERÄS stool to provide seating.

Version ST has no armrests.

Version STA features two armrests.

The armrest curves elegantly from back to seat, provides improved seating comfort and makes the chair easier to use for all ages and physical abilities.

The cut-out in the back can be individually customised, e.g. in the shape of a city logo or other logo.

The entire TERÄS range is durable for both indoor and outdoor use. It is made in powder-coated steel and aluminium, and for being cleaned simply needs wiping down with a damp cloth. Steel components are always hot-dip galvanised before being powder-coated, providing double protection against rust.

The chair is made from hot-dip galvanised, powder-coated steel. The legs form runners and will therefore not sink into any soft surface, such as grass and is not susceptible to being blown over by the wind or easy to walk off with.

TERÄS furniture boasts a summery, Nordic look, suitable for creating cosy outdoor seating areas offering a colourful ambience and excellent durability.

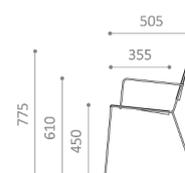

Materials

Frame: Hot-dip galvanised steel; Powder-coated, hot-dip galvanised steel

Seat: Aluminium; Powder-coated, aluminium

Dimensions

L: 490 mm
 W: 540 mm
 H: 775 mm
 Weight: ST 12.6-14.4 kg
 STA 9.6-11.4 kg
