

Gaia

The Gaia Bench is a stylish, bridge-shaped seating solution crafted from High-Performance Concrete (HPC), offering both durability and contemporary design.

The seat features an array of perforations in varying sizes, serving both an aesthetic and practical purpose—enhancing its visual appeal while preventing rainwater from collecting.

Available in two versatile designs:

- Backless Bench – A minimalist statement piece.
- Bench with Backrest – Providing extra comfort, with the same signature perforated detailing.

Choose from three sophisticated Velluto colour options:

- Grey
- White
- Dark Grey

Ideal for urban spaces, parks, and modern landscapes, the Gaia Bench seamlessly combines style and functionality.

Materials

HPC (High Performance Concrete)
