

Hawthorne Street Lighting

The 3 foot tall Hawthorne pathway light echoes the design of its taller companion. Its multiple posts spread as they rise from their base to house a LED luminaire with sealed thermoformed lens. Like Alcott, Hawthorne is finished in durable polyester powder coated. Hawthorne is part of the Concord range which is an integrated collection of site furniture elements in a Modern Traditional idiom. Created in collaboration with Robert A. M. Stern Designs, Concord is informed by the past and contemporary in spirit. The collection embraces progress and new technologies, while rooted in American history and the national view of the landscape as a place of respite and pleasure. Concord's five elements include a bench, a litter and recycling bin, a pedestrian light, a path light, and a bike rack - all related in form, scale and materials, and individual in expression and detail.

Specification:

Materials:
Aluminium.

Fixings:
Below ground installation.

Dimensions

Height: 941mm
Diameter top: 270mm
Diameter base: 171mm
