

Ecoside Recycling Bin

The Ecoside Recycling Bin is manufactured from thick steel sheet and mounted on a steel frame with front hinged key opening flap with an easy closing snap lock. Available as a wall mounted litter bin or placed on the ground (on a steel plinth) as a surface mounted bin. Customisable with stickers for recycling. The Ecoside litter bin can be placed in numbers next to each other to create a uniform line of bins of which each one catering to a specific waste material.
