

## Obra

The Obra Tree Grille is made from laser cut steel sheet which features perforated leaf designs. The grille is available in three shapes: circular, rectangular and square. The grille is made up of two halves, reinforced by a surround in steel plate which is designed to be screwed together. It is also supplied with an L-profile steel frame with brackets for installation into concrete foundations. Can also be left free standing.

### Dimensions

H: 40mm  
 W: 990 / 2300mm  
 D: 990 / 1990mm
